

Summer Paving Completed

Perhaps you've noticed the new asphalt pavement on **Martin** and **Randolph Roads**. Both roads have been chipped and sealed and new lines have been painted. Thanks to the **Sunoco Pipeline Company** for footing the bills on these worthy projects. The **Suffield Road Department** has also completed its agenda of chipping and sealing for 2015. Thanks for a great job on the roads. The **Road Department** is now concentrating on mowing. Some of the roads in Suffield are maintained by the **Portage County Engineer's Office**, while State Route 43 and U.S. Route 224 are maintained by **O.D.O.T.** (August 13, 2015)
